

MIXING INSTRUCTIONS: mix 64 ounces of Naprovit PRO Plus™ with 54.5 gallons of fresh water for distribution through misting system. **For best results, do not over or under dilute.**

NOT FOR USE IN ULV FOGGER SYSTEMS OR EVAPORATIVE COOLING SYSTEMS

DO NOT AGITATE IN TANK

Automatic Misting System Dilution Table

Tank Size (gallons)	Ounces of Naprovit PRO Plus™	Misted Concentration
20	23	0.91%
35	41	0.91%
55	64	0.91%
125	145	0.91%

For partial tank refills: add 1.2 ounces of Naprovit PRO Plus™ for each gallon of the tank to be filled. Fill tank with water first, and then add product to minimize foaming.

DIRECTIONS FOR USE:

There is no need to remove people or animals prior to application or disbursement of properly diluted product. Food processing operations do not need to be interrupted when applying. No precautions necessary when misting in the presence of food or drink; however, direct application should be avoided.

RECOMMENDED MISTING PATTERN to control mosquitoes and other flying insects:

- Minimum 5 times per day in the evening
- Minimum 30 second misting
- 45 minutes between mists
- Start cycle 30 minutes before dusk

Indoor use:

If misting nozzles are present in indoor areas, no special precautions are required prior to misting appropriately diluted product. Product may also be applied in hand-held sprayers, maintaining the same product/water ratio as for

partial tank refills listed above: **1.2 ounces of product yields one ready-to-use gallon.**

May be safely applied to all structures, livestock, ponds, shrubs, fruit trees, shade trees, homes, barns, stables, vehicles, and more.

Safe for application on or around livestock and domestic animals

OUTDOOR AREAS FOR USE			
AMPHITHEATERS	ANIMAL SHELTERS	AMUSEMENT PARKS	ATHLETIC FIELDS
BACK YARDS	BARNs	BOARDWALKS	CAMPGROUNDS
CIRCUSES	COMPOST HEAPS	CONCESSION STANDS	CONSTRUCTION SITES
CORRALS	COUNTRY CLUBS	DAY CARE FACILITIES	DOCKs
DOG HOUSES	DUMPSTERS	FAIRGROUNDS	FEEDLOTS
GARDENS	GAZEBOS	GOLF COURSES	GUN RANGES
KENNELS	LANDFILLS	MANURE PILES	MARINAS
PARKS	PATIOS	PLAYGROUNDS	RESTAURANTS
STABLES	STADIUMS	TOOL SHEDS	ZOOs

INDOOR AREAS FOR USE			
ANIMAL SHELTERS	ATTICS	BAKERIES	BARNs
BOAT HOUSES	CAFETERIAS	CANNERIES	CONCESSION STANDS
DAY CARE	DOG HOUSES	FACTORIES	FOOD PROCESSING PLANTS
FRUIT PACKING	GARAGES	GRAIN ELEVATORS	KENNELS
KITCHENS	LOCKER ROOMS	MEAT PACKING	MESS HALLS
MOBILE HOMES	POULTRY HOUSES	RESTAURANTS	SCHOOLS
SHIP HOLDS	STABLES	TOOL SHEDS	WAREHOUSES

Why are misting systems professionals switching to Naprovit PRO Plus™?

- No stickiness on eaves or windows
- No residue on bottom of tank, so less maintenance
- Keeps lines, nozzles and filters clean, so less maintenance
- Doesn't degrade equipment
